

one step solution to all quality and innovative machineries

SREE VALSA ENGINEERING COMPANY is the pioneer manufacturer and exporter of Pulverizers, Impact pulverizers, Roaster, Blender, Mixers, Food Processing, Agriculture, Ayurveda, Poultry, Bakery, Hotel and Kitchen Machineries. We do special Machineries according to our client's specific needs.

We comprise a team of expert professionals who have immense expertise in the respective fields. There are well versed with the various procedures undertaken in designing, fabrication and assembling of innovative machines.

SELVIN Pulverisers are economical, hygienic, robust and easy to use. Those who seek self employment could utilize our small 8' Pulveriser which could be run on 2HP single phase motor (Domestic line). Oil Cooled self alignment roller bearings and balanced cutter helps the machine runs smoothly and continuously. The specially designed hardened cutter and teeth helps long durability of the spares.

SELVIN Mini & Heavy Duty oil cooled Pulveriser. The speed rotation of the beaters creates a cool air chamber which helps to retain the coolness the original color, taste and fragrance of the material. It grinds almost all spices, masala, salt, sugar, coffee, dry fish, cattle feed and ayurveda medicines etc.

Model	Power (HP)	Output Capacity kg/hr 4500 to 6000 RPM				
		Wetrice	Wheat	Chilli	Coriander	Turmeric
SELVIN Grees 408	2HP Single Phase	50	20	8	10	10
SELVIN Oil cooled 408	3HP	50	20	8	10	10
SELVIN 511	7.5 HP 10 HP	200	60	20	25	40
SELVIN 514	10 HP to 15 HP	300	100	40	50	80
SELVIN 616	15 HP to 20 HP	500	150	75	90	100

SELVIN HAMMER MILL BLOWER (Cyclone Attached)

Hammer Mills are recommended for Large Scale Production Units. This is very easy to operate and no spillage even at Collection side. This is suitable for curry powder, Ayurvedic Medicine, Cattle Feed and Chemical Industries.

Model	Power (HP)	Output Capacity kg/hr 4000 to 5000 RPM				
		Chilly	Coriander	Turmeric	Wheat	Ayurvedic
SELVIN HM 18	20	150	60	100	200	150
HM 24	40	250	90	170	350	250
HM 32	60	400	150	200	500	400

SELVIN CAKE KNEADING MACHINE / PLANETARY MIXER

Handsome design smooth and noiseless operation in heavy load. The rotator of the whisk is a planetary motion (u) self rotation anti-clock wise and overall rotation clock-wise so the results good sponging and higher yield. Capacity starts from 10 ltr to 100 ltr.

SELVIN 'U' Type Ribbon Blender

S.S. & M.S Models available starts from 100 kg to 3 tons per batch. This is used for mixing various types of powder or granuals in a large volume application. Cattle feed, Masala, Chemical, Ayurveda, Pharmaceutical, Fire Brick, Ready Mix manufacturers. The Self designed ribbons helps the uniform mixing of the materials.

SELVIN S.S Double Cone Blender

For mixing two or more different powders into a homogeneous mixtures. It is available in capacity starts from 10 kg to 200 kg. The Gear Box is made up of high tensile steel hardened to ensure long life work smoothly and noiselessly even in heavy load. We ensure a homogenous blending.

SELVIN FLOUR KNEADING MACHINES

1. Bowl and Stirrer are made up of S.S. 304 (food grade) stainless steel.
 2. Belt guard is provided to ensure the safety of the workers
 3. The bowl and Stirrer design ensures short mixing time with a good kneading result .
 4. Even small quality of flour is also kneaded
- Models available : 10 kg, 20 kg, 30 kg, 40 kg, 60 kg.

Shifler

Ground nut Skin Remover

Shredder or Wooder Cutter

Vibro Shifter

Pan Mixer

Wet Grinder

Kettle

Rice Washer

Mixture Machine

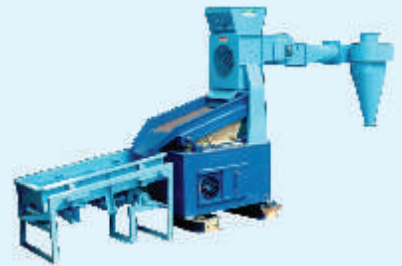

FFS Packing Machine

Wet Grinding Machine

Destoner

Veg. Cutter

Potato paler

Oil Dryer

SELVIN IMPACT PULVERISERS

These Machines are recommended for grinding fineness above 80mesh. It grinds dense materials like clay, wooden pieces, coconut shell, roots, turmeric etc. Instead of sieves whizzer classifiers are used.

Model	Power (HP)	Output Capacity kg/hr 3500 to 4000 RPM				
		Turmeric	Ayurvedic	Chemicals	Clay	Sawdust
SELVIN IP 14	20	50	40	80	110	90
IP 16	25	75	60	120	170	120
IP 20	40	125	90	160	220	175
IP 25	60	175	120	200	300	225

SELVIN HOT AIR TRAY DRYER

This Machine is used to generate hot air using firewood or Electric is fuel for de hydrating spices, leaves, nuts, ayurveda root etc. in bulk quantity at temperature between 40 to 120°C. Drier having 6 Tray to 96 Tray. Room Driers can be supplied as per customer specifications.

SELVIN URILI ROASTER - 60 Kg

This Machine is suitable for roasting of rice powder, wheat, rava, grains, spices, coffee etc.

Operating Principle : A small motor rotates a pan (Urili). The stirrers placed inside the urili blends and thoroughly plugs the material from top to bottom. At the same time the materials is dry feed evenly by the heating systems.

Model	Power (HP)	Capacity of Vessels (Litre)	Output Capacity
URB 10	0.25	45/10	40 mins
UTB 20	0.25	90/20	40 mins
URB 60	1.5	120/60	1Hr
URB 100	2	200 / 100	1Hr
URB 200	3	400 / 200	1Hr
URB 250	5	500 / 250	1Hr

SELVIN ROTARY SIEVERS

These machines are more suitable for sieving fineness above 80 mesh to 300 mesh. The close tolerance blades and adjustable wire brush is provided to sieve the maximum fine material. Easy cleaning arrangements and continuous operation can be made in this machine. Capacity starts from 200 kg to 2 Ton per hour.

SELVIN GROUNDNUT CONTINUOUS ROASTER

Used to roast raw groundnut to roasted groundnuts which is used in the making of groundnut bars (Chukles). Capacity 40kg/hr to 300 kg/hr onwards. Groundnut is roasted along with sand to get the traditional aroma and sand is segregated from the groundnut and recycled in the machine. Separate machine is available for breaking ground nuts and removing skin.

SELVIN AUTOMATIC ROASTER

Automatic Temperature controlled Roasting of Supari, Cashew, Chillies, Coriander, Spices and various other products. Can also be used for moisture removal in many products. For efficient heat recovery, separate exhaust fan is fitted for reducing the roasting time. The cylindrical roasting drum is covered with heat resistant panel to avoid heat loss. LPG and Electric Models are available.

SELVIN HALWA / LEHYAM MIXING MACHINE

1. The construction of the Machine & Gearbox are heavy to ensure smoothly and noiselessly in heavy load
2. The vessel and stirrer and all contact parts are made of 304 S.S. (Food Grade)
3. Portable & Tilting modes for easy reloading if more suitable for making Halwa, Sweets (Ayurveda Lehyam)
4. L.P.G. and Electric model available. Models 20kg, 40 kg, 100 kg, 250 kg.
